THE NEWS OF THE WEEK. A Daily Resume of Important Happenings.

New Orleans, regarding the yellow fever visitation as practically ended, is now seeking to adopt measures which will forever bar the plague. In this connection it is hoped that Dr. White, the leader of the Marine Hospital Service, will be indefinitely retained in the city.

If there is anything more touching and pathetic than the following we have yet to read or hear of it. Alighting from a railroad train at Chicago Miss Louise Butler fell under the wheels, and was terribly mangled. The Chicago Record-Herald, referring to this accident relates an interesting story. The Record-Herald says that after the accident Miss Butler was placed again on the train from which she had fallen to be conveyed to a hospital five miles away. Reviving in spite of terrible injuries, she began singing softly:

Abide with me, fast falls the evening;
The darkness deepens, Lord with me abide.
When other helpers fail and comforts flee
Help of the helpless, oh, abide with me.

The Record-Herald says: The song the hymn through, even as her hands clutched in her agony, and the last line was reached as the train stopped and she was lifted from it.

Again when she was placed on the operating table the girl sang the prayer, only ceasing, when her mother and father reached her, to beg them not to grieve.

Turning from them to her pastor, Miss Butler asked him to comfort her parents, and requested him to pray. As the prayer was finished, she took up another hymn:

My faith looks up to thee,
Thou lamb of Calvary,
Savior divine,
Now hear me while I pray,
Take all my guilt away,
Oh, let me from this day
Be wholly thine.

Her voice faltering on the last line, she whispered: "Do not grieve. Tell them I am not afraid to die," and became unconscious. She died thirty minutes after.

The cruiser West Virginia, with President Roosevelt aboard, was picked up from Washington by wireless—a distance of 1,000 miles.

Among the delegates appointed to the Southern Conference on Immigration and Quarantine by Governor Beckham are the names of Dr. J. J. Zerk, Ashland; John Buchanan, Painesville; Walter S. Harkins, Prentissburg; and James Hatcher, Pikeville.

Master Tom Prichard, the bright son of Mr. and Mrs. J. Lewis Prichard, is suffering from a broken arm.—Press.

Nearly 600 Confederate Veterans attended the annual reunion at Peewee Valley, near Louisville, Thursday last. The Rev. John R. Derrington, of Lexington, offered prayer. Commander Young delivered an eloquent address, affectionately referring to the many veterans who had died during the year. He congratulated the association on the large number in attendance, and hoped that all would be alive when the next annual session was assembled.

Col. Burnett Young was re-elected Commander.

President Roosevelt has appointed Governor David R. Francis, of Missouri, a special commissioner to visit the forty-three foreign governments, and extend to them the "silk" of the United States for taking part in the Louisiana Purchase Exposition held in St. Louis last year.

In a race riot between school boys at Indianapolis, a fourteen-year-old white boy was shot and seriously wounded by a twelve-year-old negro.

Morehead, Ky., Oct. 25.—Circuit Judge A. W. Young fined his brother, W. A. Young, who is the Democratic nominee for Representative in this district, and sentenced him to jail for twenty-four hours for contempt. At the intervention of members of the bar, the jail sentence was remitted, but the fine held.

The case before the court was that of Alonzo and Henry Prayley, charged with the murder of Federal Priddy. A jury was being selected and Mr. Young made some remark which the court deemed discourteous. Judge Young said:

"Mr. Clerk, fine Mr. Young \$5."
"Make it \$10," said Mr. Young.
"Make it \$15, Mr. Clerk," said Judge Young.

"Make it \$20," said Mr. Young.
"Make it \$25, Mr. Clerk," said the court.

This was at the morning session of the court. The sharpness of feeling was renewed at the afternoon session and Judge Young fined Mr. Young \$25 and sentenced him to two hours in jail.

"Make it twelve hours," said Mr. Young.
"I will do better than that," said Judge Young. "I will make it twenty-four hours, and Mr. Sheriff, execute the orders of the court."

At this point several members of the bar intervened and asked a suspension of the court's order.

In answer to an inquiry from a correspondent as to why all dummy advertising clocks in front of jewelry stores read 8 o'clock and 17 minutes, the Scientific American answers that it is the exact time when Abraham Lincoln was assassinated.

Eight o'clock and 17 minutes may have been the exact time Abraham Lincoln was assassinated, but dummy advertising clocks in front of jewelry stores have shown this time long before Lincoln's death.

There is no necessity for going to Virginia to see a natural bridge. There is one in Martin county, about a mile and a half from Eden, and a description of it is herewith given, cut from the local paper, verbatim et punctum et spellum.

Last Saturday afternoon a large crowd of school children with three of the school teachers of the Academy, Messrs. Anderson, Davidson and McDonald, also Mr. S. N. Copley and the "Spotted Elder" visited the Natural Bridge, which is about 1 1/2 miles of town although it has been talked of so long some of us had not yet seen it and we found it to be very interesting. It is about 25 feet long by 8 feet wide although there is no creek, but it spans a distance from one peer to the other about 20 feet forming an arch underneath high enough for a man to stand erect under it. This bridge on top is covered almost entirely by names of persons who have visited it in the past fifty years there is doubtless two hundred or more names engraved there.

Huntington, W. Va., October 27.—Because she refused to return his love J. W. Bryan, prominent in business circles of this and Wyoming county, created a sensation on the main street of the city to-day by attempting to cut the throat of Miss Jane Smith, stenographer for Sheldon & Sons.

Bryan, who is wealthy, was arrested and locked up. He stated that he had been in love with Miss Smith for years and could not live without her, although he has a wife and four children. He waited for Miss Smith at the corner of Third avenue, and when she left the office made a dash for love to her. She became frightened and started to run.

Bryan pulled a razor from his pocket and pursued her along the street saying: "I'll cut your throat if you won't love me. You shall love me any one else. He was bound over to the grand jury.

As the result of the bursting of a water main in one of Chicago's principal streets three persons lost their lives, and property to the amount of \$150,000 was destroyed.

The dismembered body of a woman, found in two valleys in Boston harbor, has been practically identified as that of Ethel Durrell. Morris Nathan to whom the girl was engaged, was arrested in Pittsburgh.

Oct. 23.—Eugene Zimmerman, of Cincinnati, while in Detroit today, announced that the railroad system embracing the Detroit, Toledo and Irons and the Ann Arbor roads had let to the American Bridge Company a contract for a \$2,000,000 bridge over the Ohio river at Ashland, Ky.

The aim is to bring the Michigan and Ohio territory of those lines in direct communication with the West Virginia and Kentucky coal fields.

Mrs. Mary Thacker, widow of Wm. Thacker, who was hanged at Fleningsburg, Ky., by a mob, has filed suit against citizens of Fleningsburg for \$50,000 damages.

Owingsville, Ky., Oct. 22.—In a saloon here this afternoon Robert Wood attacked Samuel Taylor with a knife. Wood was policeman at Holden, Va., and shot two men there last summer.

A resolution is under consideration in the Tennessee Methodist Conference looking towards the secession by the church of the ownership and control of Vanderbilt University.

A verdict of \$10,000 was returned in the Shelby Circuit Court against the free.

SON LOST MOTHER.—Consumption runs in our family, and through it I lost my Mother, writes E. R. Reid, of Harmony, Me. "For the past five years, how ever, on the slightest sign of a Cough I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble."

His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price one and one-half dollars; guaranteed at A. M. Hughes' drug store. Trial bottle free.

BIG SANDY.

Strong Article by Eugene Zimmerman, Railroad and Capitalist.

Cincinnati, Ohio, October 28, 1905.
Mr. A. T. Ford, Chairman,
Fourth State Development Convention,
American National Bank Bldg., Louisville, Ky.

My dear Sir:—

Your valued favor of the 2nd instant received. As the annual meeting of the Stockholders of our Company occurs Tuesday, October 30th, the date your Convention convenes, and as I had previously made engagements for the 11th and 12th, it will be impracticable for me to accept your cordial invitation, much to my regret. The compliment accorded me in being assigned a place in your programme to respond to the theme "The opportunities for capital in Kentucky" is especially appreciated as the subject would have been congenial to me. However, with your kind indulgence, I shall take this opportunity to briefly record my sentiments and views.

My faith in Kentucky as a field for capital has steadily grown as I have studied her natural resources and become convinced of their variety, vastness and richness. The greater portion of the State, with the exception of the limited territory contiguous to the existing lines of railway and water-courses, is undeveloped, but contains, in my estimation, greater possibilities than any other region of corresponding area in the United States.

The eastern or mountain district, which I am most familiar with, its coal fields over 10,000 square miles in area, and the western fields with 2,700 square miles, gives the State a coal area of 12,700 miles, exceeding the area of the Pennsylvania coal fields, or the entire coal area of Great Britain and Ireland. In addition to the bituminous coal in the district, there is also the largest area of camel coal in America. Coal is found in every county in the State in a line from the Ohio river to the Tennessee border. The valuable deposits of coke coals, which have added great wealth to Pennsylvania and West Virginia, have long since been identified in the valleys of the Cumberland, the Kentucky and the Tennessee borders. The valuable deposits of coke coals, which have added great wealth to Pennsylvania and West Virginia, have long since been identified in the valleys of the Cumberland, the Kentucky and the Tennessee borders.

This is an economic question, involving thirteen thousand millions of capital, and the interests of the wage earner, besides jeopardizing facilities and accommodation as common carriers to the public, and it shall require the highest statesmanship in its wise solution.

Very truly yours,
(Signed) E. Zimmerman.

MAN'S UNREASONABLENESS
Is often as great as woman's. But those, S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife, for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by A. M. Hughes' drugstore, price 50c.

"The Commoner"
Mr. Bryan's Paper.

Now is the time to secure Mr. Bryan's paper. All Democrats need the paper and Mr. Bryan needs the support and co-operation of all true friends of reform. The Commoner has commenced to organize the Democratic hosts for 1908. Mr. Bryan's advocacy through the Commoner of public ownership of railroad and telegraph systems, the election of U. S. Judges and U. S. Senators by popular vote, direct legislation, the overthrow of private monopolies, tariff reform and other issues, assures interesting and instructive reading as well as new life to the party.

Another Big Sandy Boy In Front.

The NEWS has received from a Lumber Trade Journal containing a friend an extract from the New York notice of a Louisiana "boy" who has made his mark in the lumber business. After reading it you will again agree with what we have often said, that the young Big Sandian who "has a chance and tries" will undoubtedly succeed. The Journal has an excellent picture of the subject of the sketch. Mr. John C. Burchett, who we learn, will no doubt, in a short time become the Secretary of the Association.

Advisors have been received to the effect that President R. H. Van Sant, of the Hardwood Manufacturers' Association of the United States, has appointed Mr. J. C. Burchett assistant secretary to Mr. Lewis Doster, the well-known scribe of the organization.

Mr. J. C. Burchett is a native Kentuckian, having been born in the early seventies along the head waters of Big Sandy river, which furnishes and has furnished such magnificent Poplar and Oak logs.

His first intimate knowledge of the manufacture of lumber was acquired in planning mill work in which he was employed for some time "hunting lumber." He "made good" the time spent at this work, applying all the information he could gather about the different grades, and in a very short time it was evident he could fill the position of planning mill inspector, which position he occupied for two years with entire satisfaction.

His ability as a lumberman was so evident to the superintendent of that plant that he was placed in charge of shipments from the Panther, W. Va., operations of the W. M. Ritter Lumber Company, which place he filled for one year. At that time he received a very flattering offer from the D. B. Murphy Lumber Company to become southern representative for them, which offer was accepted on April 1, 1904, and he was at once located with headquarters at Chattanooga, Tennessee, to do the buying and inspecting of poplar and Hardwood lumber for his new company, which place he held until the summer of 1905, when he commenced field work for the Hardwood Manufacturers' Association, and was shortly afterward appointed assistant secretary of that association, which position he now holds.

Our school house has been improved by a new coat of paint.

Mrs. J. L. Wells, who has been very sick, is much better.

D. C. Bently, who has been in W. Va., for some time, is visiting home folks.

John Sturgill, who has been very sick is some better.

D. M. Justice is building a new house on the farm of S. T. Kiger.

Edward Shuff has returned from W. Va., and is fixing to repair his barn.

Several of our farmers have begun stripping tobacco and the quality is very good through here.

S. J. McKinney has moved on Sturgill's farm. XXX.

TWO STATE SENATORS ENDORSE PE-RU-NA.

HON. J. H. SAUER.
Hon. J. H. Sauer, State Senator from Douglas Co., to the Nebraska Legislature, writes from Frank's Hotel, Omaha, Neb., as follows:

"Having tried Peruna I can commend it to all as a great tonic and particularly good as a remedy for catarrh."

—J. H. SAUER.
Honorable Patrick Kennedy, Member of the Massachusetts Legislature, writes the following letter from the House of Representatives, Boston.

Dear Sir:—"I have no hesitation in saying that after having tried dozens of other remedies without relief, I owe my perfect health and clear voice of today to Peruna. I know it to be a sure cure for indigestion and its attendant affliction, nervous debility. For six weeks that I was on the platform through the recent campaign I used Peruna regularly, and although I spoke two and three times each day my voice never failed me. I know that Peruna is a reliable cure for bronchial troubles."

—P. J. Kennedy.
If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

When reading news from the White

much nor between the lines to find
out that the President's private sec-
retary, William Loebl, is a snob of pur-

By a tie vote of 2 and 2 the New
York City Board of Elections re-
jected the Republican party's re-

of District Attorney.

Friends of the various candidates
on our ticket are having so much to
say about them—rough our columns
this week that there is no room
for adding anything. The battle
takes place next Tuesday, and the
result will be looked forward to with
interest.

Car Nicholas has signed a man-
ifesto doing away with absolutism
and granting freedom of speech, con-

The warmest fight for county of-
fices in this section is that in Pike

most popular men to be found any-

You don't like those gray
hairs, do you? And your hus-
band certainly doesn't like
them. Then why not try a
bottle of Ayer's Hair Vigor?
It restores color to gray hair
every time, all the deep, rich
color of early life. And it
cures dandruff also.

I certainly believe that Ayer's Hair Vigor
is a splendid preparation for the hair and
scalp. I have used it more or less for six
years. I can testify to its efficacy in restoring
color to gray hair and in curing dandruff.

It can be of no advantage to the
Republicans of this district to send a
representative of their own party to
the Legislature. That body is largely
Democratic anyway, and only those
who belong to the majority in such
places can accomplish anything for
their constituents. Look at the mat-
ter squarely and vote accordingly.

Prof. Harry Thurston Peck, of Col-

It would be difficult to find a more
correct picture of the Cincinnati En-
quirer than the following:

The Enquirer as a news-gather, as
a lover of sensationalism for its own
sake, as an astonishingly accurate re-
flection of everything that could pos-
sibly interest any one within five hun-
dred miles of Cincinnati, is with-
out a rival, but it has never paid
much attention to editorial weight;
when it has been in politics there has
been good and sufficient reason, and
to-day it would be extremely difficult
to gather from its columns whether it
is Democratic, Republican or just Mc-
Lean.

born in New Brunswick in 1842, was
taken while a child, to Onondaga

sank off Ladington in 1878.

shot and wounded Jake Clauder. It
was a clear case of self-defense—
it seems that Clauder has two very
dangerous bull-dogs, which have been
a source of trouble to people in the
vicinity for some time. Monday Tipton
rescued a dog which they were kill-

shoot him.

Last afternoon he attempted to
make good his threat by firing at

fire, in self-defense. Monday Tipton

will be no serious results from the

A lady gave an entertainment in
Paintsville a few nights ago, and
judging from the following from one
of the local papers she must have
felt delighted with her reception:
"The enjoyment of the many who
really wished to hear Miss Southwick
was marred by the actions of a few
rude boys, who, sitting up by the
judges, bench, threw corn, paper wads
and matches at Miss Southwick, and
who also crawled behind the bench
and poked up their heads, making
faces and causing laughter. Our at-
tendee Jailer, J. D. Preston, had to
speak to the boys, and Miss South-
wick had to speak to them several
times before they even attempted
to keep quiet."

Saturday last, Sherman Boyd, of

influence of whiskey that the two
survivors hardly knew how it was
done.

Sherman Boyd was charged with the
crime, and on the trial very frankly
stated that he had no recollection
what occurred, hence could neither
affirm nor deny his guilt. Upon his

YATESVILLE

Edmond Shuff, of Ratcliff, was
through here en route to Louisa a
—days ago. Also Monroe Penning-
ton and family of the same place pass-
ed through here en route to Wise
county, Va., where they will make
their home.

Your scrupulous accompanied by another
or so of our neighbors visited
the scene of death and devastation,
where the Browning Steam Saw and
grist mill exploded on the Long
branch last Saturday morning. Three
men to wit: Henry Wilson Norris
Rodgers and a man by the name of
Low lay dead at the neighboring
farm houses, they had been cut by
fragments of the Boiler and scalded
by the boiling water so badly that
they presented a sight sickening to
behold. Several others were more
or less injured, but none seriously
except two young men by the name
of Clay and Plumber, whose faces
and bodies were very severely scald-
ed. It is thought that Plumber will
lose his eye sight. Doctors Rice
and Carter were immediately on the
scene and did all they could for the
relief of the suffering.

I now say Mr. Editor I wouldn't
wish to take any advantage of the
Republicans of Lawrence county, be-
cause we have a paper and they
have none, but now let me tell you
just as sure as the sun rises on the
morning of the 8th just that sure,
it will shine on a lady Superintendent
of Schools of Lawrence county, and
the fact is, it will shine on all the
men as officials whose names
constitute the entire Democratic tick-
et. Now it is not the aim of the
Democratic party in this county to
throw any mud, but on the contrary
it is the aim of each Democratic can-
didate that is in the field to make a
gentlemanly race. Men, there's an-
other thing. All or mostly all of our
Democratic aspirants have been tried
and proven weighed in the bal-
ances and was never found wanting.
We voters all know a good home
and when we have a good old fam-
ily horse we are not going to part
with him so long as there is a
chance to avoid it. Well now Bill
Rywoods and Al. Hays is known to have
been two of the best officials that
Lawrence county has ever had. In fact
it is known that while in office they
have both always been too kind
hearted for their own good, and
there as the discharge of their of-
ficial duties the past records show.
As to Add Skeens and Labe Simpson
they are and have been our neigh-
bors and we know whereof we speak
in regard to their qualities as gen-
tlemen. Skeens past record as coun-
ty clerk and Simpson's record as an
honest upright citizen all show them
to be the men for the office to
which they aspire.

Country Greenhorn.

In the shade of the old apple trees,
Where the mosquitoes play tag with
the flies.

Where the kids hang their swing,
And they don't want a thing
But jumpers, as cool as you please.
They can hear the old nannygoat blat,
And can see the big dog chase the cat.
But they law awake nights
A scratching the bites
They got under the old apple trees.
On the boughs of the new Christ-
mas tree
That's the place for the presents
to be.

For the kids, large and small,
There'll be room for them all,
Hang 'em high so the youngsters
can see,
Get them toy drums and dolls, if you
choose,
But don't forget the Douglass shoes.
For the men you love,
Must not be forgot,
When you trim up the Christmas tree.

CAPTURED.

Men Who Twice Attempted Robbery of Willard Bank.

Two attempts at robbing the Bank at Willard, Carter county, have been made within the past two weeks, but both were unsuccessful. The alarm was raised both times before the men, who were professionals, had accomplished their work. The last attempt was made early on Tuesday morning of this week, when the vault door was blown with nitroglycerine and an attempt made on the safe. Not a dollar was secured, however.

Bloodhounds were put on the trail and the six men were caught. The last two were captured at Olive Hill Wednesday night. The pursuing posse was led by George Belcher and others from this county, among them being Oscar and Joe Riley. Belcher shot one of the robbers when they were first found, and some also shot the other. Both were still alive at last accounts. All are in jail at Grayson.

Two of the men charged with the crime are named Stamper, and were natives of Carter county, near Willard. The other men were professionals from a distance.

The following account is practically correct, according to our information:

Riverton, Ky., Oct. 21.—As a result of the work of the posse which took up the trail of the men who tried to blow up and rob the Willard Bank this morning, two of the alleged criminals are now here dangerously wounded, and the searching party is on the trail of the other four.

The wounded men gave their names as G. E. Smith, of Plum street, Cincinnati, and J. W. Wood, of Vincennes, Ind. Smith is wounded in the abdomen and Wood in the breast. The two prisoners solemnly refuse to divulge the names of their companions who escaped.

As soon as possible after excitement following the attempt to rob the bank, bloodhounds were secured and followed by a strong posse of officers and citizens, were turned loose on the trail. They picked it up and followed faithfully until this afternoon it ended with the discovery of the six men lying asleep beside a huge log.

The men awakened with the arrival of the officers and the dogs, but before the posse had surrounded them. Revolvers and Winchester rifles were brought speedily into action and a lively battle ensued. Realizing what the result would be on account of the uneven numbers, the six men made a desperate attempt to break through the cordon of officers. Two of them fell to the ground, the others succeeding in making their escape to the surrounding dense brush. The posse is still in pursuit of the four who escaped.

This is the second attempt within the past ten days to wreck and loot the Willard Bank. It was about 2 o'clock this morning that six men surprised and captured Night Watchman Blankenship, of the Eastern Kentucky railway at Willard. Blankenship was bound and gagged and one of their number was left to guard him.

With handcuffs drawn closely over their faces, the other five proceeded to the bank building, only a distance away. They put out pickets to guard the different approaches to the bank, and then placed their explosives. Nitroglycerin was used on the vault, and so great was the explosion that the door was blown into the street. The lock on the vault was completely shattered by the explosion, and while the robbers were hurriedly preparing another charge of the nitroglycerin they received the alarm from their companions outside that the town had been alarmed.

There was no time to make further attempt to secure the money. Those operating inside the building joined those on the outside. It was necessary for a time to hold the fast growing crowd at bay with their weapons. In a few moments the six robbers had made their escape into the darkness. Following the direction taken by them, it led the crowd to East Kentucky Junction, where it was found that the six men had boarded a freight train and escaped. The building and furnishings of the bank are badly wrecked, but the robbers failed to secure any of the money which was locked up in the safe protected by the vault.

To the People.

Blaine, Ky., Nov. 2nd. I am called to Elliott county by the death of my brother and am thus taken away from my convalescence. I will appreciate all that my friends may do for me between now and the close of the polls next Tuesday.

Very truly,

W. H. Woods.

Mr. and Mrs. Shipman were the pleasant hosts of a highly delighted and charmingly entertained party of young people Halloween. The decorations were reasonable, being jack o'lanterns made of pumpkins. Every guest was some sort of a ghost, in garb, at least, and this with the dim lights and other weird properties made a fitting stage for the enactment of the approved riffs of the occasion. Miss Myra Hazelton and John Hall, presiding deities of the upper regions, told the fortunes of the arriving guests. The fun was fast and a-plenty, and when the time for unmasking arrived many were the surprises. The Shipmans always expect their guests to eat, be they few or many, and the Halloween celebration offered a suitable occasion for a proffer of their usual hospitality. Fruits of many sorts and in great profusion were offered, with no deductions, and the event, refreshments and all will long be remembered by all who were fortunate enough to be present.

Circuit Court.

The October term of the Lawrence Circuit Court is practically a thing of the past, Judge Kinser having gone home Tuesday evening and not to return until next Thursday. Then he will come up and sign some orders and pick up the ends of some unfinished business and declare the court adjourned to "court in course." The end of the criminal docket was reached last Friday and the petit jury was adjourned until the following last Tuesday. The grand jury came in Saturday morning and made its report to acting Judge Q. W. Castle. There were 49 true bills reported, embracing indictments against 64 persons. This is a very small number, comparatively, but whether the small number of indictments indicates a healthier moral condition in the county or a lack of efficiency on part of those whose duty it was to execute process we are unable to say. Let us say we are becoming better and let it go at that. Judge Kinser came back Tuesday and after hearing some motions and calling the docket he finally adjourned the entire jury.

Thus ended what was probably the shortest term of the Circuit Court held in many years. The petit jury served five days, one day less than the term of the grand jury, something unparalleled in the history of this Court.

THE CANDIDATES.

Contributions Handed in by Friends in Their Behalf.

Judge Woods.

We need a safe man for County Judge, one who knows how to practice economy in public affairs and at the same time do the most possible good for the county. Judge Woods is a man of mature age, a man of experience, and a man who knows the needs of the people throughout the county. He lives and mingles with the farmers, knows the value of their property, and will protect their interests. He served one term as County Judge of this county and his work stands as proof that he is a safe, competent man. He, while County Judge, started good road building on a good grade, and opened up some sections of the county that had practically had no road for the county seat. He did this work with out exceeding the county's income, and if elected he will help other sections of the county which have heretofore practically had no help and he will do this and keep within the county's resources. We must have economy in this office and Judge Woods can be relied on to give it. He knows the people and knows business men, and a man of honesty and integrity; the voters can safely place their confidence in him.

A Taxpayer.

For John L. Hibbard.

It is not generally known that the County Surveyor must be examined according to law and receive a certificate of qualification. He must be strictly speaking, a civil engineer. John L. Hibbard, present Surveyor, is a candidate for re-election. He is a civil engineer of considerable ability. To say that as an official and has given satisfaction is not strong enough; he is a popular Surveyor. Hibbard is a gentleman in the truest sense; a great friend to churches and Sunday Schools. He asks the people to elect him because he loves the work and expects to remain in it. You will make no mistake by voting for him.

VOTER.

Be Loyal to Your Ticket.

Democrats, support the man who defeated you in the primary election, as we agreed. Since the primary election I find there are some few defeated candidates and their friends who are "sore" on account of defeat. This is not consistent with our primary election, for it was a fair and honorable one and I don't believe a better ticket could have been selected to make the November race in both our county and city elections. Also, I see our nominees for State Senator and Representative of the type that who supported me in the primary election, and I feel that I should speak a word for my friend, Mr. Add Skeens. He is an honorable man and a cripple from childhood by the disease of white swelling. I believe if we elect him this time he will be a new clerk and a new Add. Now brother Democrats, our device is the emblem of Democracy. He is crowing for good Democrats. Let the rooster do your scratching.

Yours truly,

Wallace W. Johas.

J. F. D. Borders.

J. F. D. Borders, known as "Jud" is a candidate for Coroner. No better man ever asked for the office. Besides being qualified for the duties of the office he is a man of clean Christian character, a minister in the Baptist church, and a moral force in his community. Honest Christian people of any political party will honor themselves by voting for him. A vote for Borders will be a vote for morality.

We very much doubt if there is a town of this size in Kentucky which has as many good sidewalks as our own Louisville has. Many of the pavements are concrete, and now the crosswalks are being constructed of the same durable material. Many new pavements have been recently laid and others are in process of construction.

TERRIBLE ACCIDENT.

A Boiler Lets Go, Killing Three Men Outright and Wounding Many Others.

About nine o'clock last Saturday morning the boiler of a saw and grist mill on Long branch, near the mouth of Marcum hollow and a short distance from the town of Fallsburg, blew up with the result indicated in these headlines. Early as was the hour the usual crowd had collected, some on business, others, as is the custom of the country, gathered for chat and to hear the news. No possible danger was suspected, when with a crash and roar, which were heard for miles the boiler burst, carrying disintegration and death to many and causing the complete demolition of the mill. There were a few hushed seconds of awful intensity and then the survivors of what was a light-hearted throng began to investigate. Far apart and mangled horribly were three of the men, fatally injured. One was killed instantly. Scattered about in various positions, some prone upon the ground and others groping with eyes burned out, were nearly a dozen men all more or less seriously injured. The Fallsburg doctors, Rice and Carter, were summoned by phone and they made all haste to the scene of the disaster. They found dead, Henry Wilson, commonly called "Bile Hy," aged 29, engineer, Norris R. Rogers, widower with 2 children; Luther Lowe, of Elliott county and a nephew of Rogers. As far as can be learned the following is a list of the injured: Elfin Ball, 25, married; burned all over and will probably die; Allen Clay, 21, single, about the same injuries; William Plummer, 35, married, face and eyes burned; John Peterman, 18, single, face and eyes; Eph Moore, 28, married, both legs injured; George Newsom, 28, single, and one of the Queen boys, both hurt more or less severely. George Browning and Ed Short, the owners of the ill-fated structure, were both hurt, but only slightly. Browning was the sawyer, and was blown under some logs by the force of the explosion. As said before the mill was totally wrecked. One large piece of the boiler was found 200 hundred yards away, and the dome found lodged at least 150 yards off.

Inexperience of the engineer is said to have been the cause of this awful disaster. We are informed that the safety valve of the boiler had been loaded down until the concern could no longer stand the tremendous pressure, then it let go. There is no law requiring the inspection of stationary boilers, no law which requires an engineer to have a license to run such an engine. At least we know of no law on this matter which applies to boilers and engines in the rural districts. These explosions are numerous, and it is only a question of time when these uninspected boilers and unlicensed engineers will come to grief.

Wednesday morning Eugene Zimmerman, the former president of the C. H. & D. R. R., now president of the Detroit Southern R. R., passed through here on a special car with a party of friends making a tour of the Big Sandy valley. From what we can gather Mr. Zimmerman seems to think it is decidedly worth his while to make this trip for the purpose of investigating this part of the country and we feel quite sure that such a trip will result favorably for the Big Sandy valley, which has the promise of a great future. It is hinted that the railroad magnate has an idea of building a railroad up Big Sandy, and is now prospecting with that in view. The special car, which was Mr. Zimmerman's private car "Detroit," was attached to No. 36 and came back in the afternoon with 23.

It is hinted that the railroad magnate has an idea of building a railroad up Big Sandy, and is now prospecting with that in view. The special car, which was Mr. Zimmerman's private car "Detroit," was attached to No. 36 and came back in the afternoon with 23.

Wednesday morning Eugene Zimmerman, the former president of the C. H. & D. R. R., now president of the Detroit Southern R. R., passed through here on a special car with a party of friends making a tour of the Big Sandy valley. From what we can gather Mr. Zimmerman seems to think it is decidedly worth his while to make this trip for the purpose of investigating this part of the country and we feel quite sure that such a trip will result favorably for the Big Sandy valley, which has the promise of a great future.
